## LOL

How does a bee  
BRUSH ITS HAIR?

(ANSWER ON BACK)

DID YOU KNOW?

BROCCOLI is actually a flower. So, make sure to eat ALL of your flowers!

## The not-so-scary side of bees...

Bees might seem scary, but they only sting when they feel threatened, so just let them do their thing. Without bees, we might not have flowers, fruits, vegetables, and other plants! They go from plant to plant to collect and deposit pollen, which allows plants to reproduce. **You can help bees by planting flowers that they love!** Google what plants attract pollinators in your area.

## It All Adds Up

Don't forget to make a deposit during your birthday month! We will match that up to your age. While it may not seem like much, small amounts add up over time.

For example, if you (or your parents) make a deposit equal to your age every year from age 1 to 12, **you'll have an extra \$78** when you turn 13!
